

Terms of Service

All trademarks, business names or distinctive symbols of any kind that appear in the software are the property of TEXAS CONTROLS or third parties who have authorised their use. Any such use or access to the Software and/or Contents may not be considered as granting the user/client any rights whatsoever with regard to any such trademarks, business names and/or distinctive symbols, nor may any of the rights of use that exist or may exist in relation to these Contents be considered as having been transferred to the User.

All of the material relating to the contents of the technical documentation accessible via the web platform at <https://jims.texascontrols.com> is the exclusive property of TEXAS CONTROLS, or of any of its suppliers, who are authorised to use the same. The contents include but are not limited to the following: texts, images, designs, software (including source code, object code, and the user's manual), databases, plans, graphics, maps, diagrams, algorithms, methodologies, audio and video files, documentation, etc.

These materials and contents are protected by industrial and intellectual property rights, and the exclusive right to use the same in any form corresponds to TEXAS CONTROLS, and in particular the rights regarding their reproduction, distribution, public communication and transformation.

The provision of these contents to the users/clients is by means of restricted access, and their use is exclusively limited to undertaking the provision of services.

The user/client agrees to make diligent and exclusively personal use of the contents, without being able to use the same for any commercial purposes. In particular, by accepting these terms and conditions, the user/client agrees not to send, distribute, publish, modify, provide to third parties and/or reproduce this material in any way.

Any unauthorised use of the material and information may be considered as an infringement of industrial and intellectual property rights.

The unauthorised use of the information contained on the Platform, as well as any infringement of the intellectual or industrial property rights of TEXAS CONTROLS, shall be subject to the liabilities established by law.

The user shall not provide their access code/password/user name to any third parties. The User shall be responsible for safeguarding and duly updating the access coders/passwords.

In this case, the user shall be liable to TEXAS CONTROLS and/or the authorised providers for any damages arising as a result of the loss or theft of the access code/user name/password to third parties, and or their use by any third party.

Any notice which may be required to be given to us under these Terms of Service may be sent to us by writing or emailing to the following addresses:

TEXAS CONTROLS Pol. Ind. de Bergondo, R17 - 15165 Bergondo, A Coruña, Spain
Email: texas@texascontrols.com
